

DOMINION

Place some dominoes (1x2 black cells) in the grid, in order to divide the grid into some regions of adjacent squares. Dominoes cannot overlap or touch each other from the sides. It is also not possible that a domino covers a letter. All area's have at least one letter. Same letters belong to the same area, different letters belong to a different area.

	I						D		
					D			A	
G							A		
	G								
		E			H				
							A		C
			H					B	
		J			A				
				F					
						F
