ORTEC

OPTIMIZE YOUR WORLD
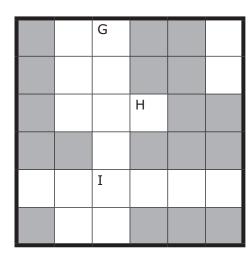

1 NEIGHBOURS - relay

Place digits 1–3 in the grid so that in each row and column, each digit appears twice. Numbers in grey cells do not share an edge with a cell containing the same number. Numbers in white cells share an edge with at least one cell containing the same number. All grey cells are given.
The letters in puzzle 1 (A, B and C) correspond with A, B and C in the second puzzle, and so on.

Score: 30 points for each correctly solved grid
Complete puzzle: 4x30 plus 30 points = 150 points

150 points
