

16 SEPTEMBER 2019

NORINORI

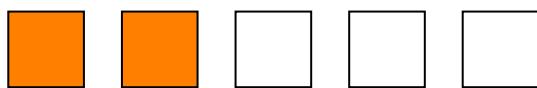

Kleur twee vakjes in elk vetomrand gebied, zodat er domino's ontstaan. Deze domino's kunnen binnen één gebied liggen of over twee gebieden verspreid zijn, maar mogen elkaar alleen diagonaal raken.

NORINORI

Colour two cells in each region, such that dominos are formed. Dominos may be either completely in one region or span over two regions, but can touch each other only diagonally.
