ZEESLAG

Plaats de gegeven vloot in het diagram, waarbij elk scheepssegment de grootte van één vakje heeft. De schepen liggen horizontaal of verticaal en ze raken elkaar nergens, **ook niet diagonaal**. Vakjes met water blijven leeg. Aanwijzingen buiten het diagram geven aan hoeveel scheepsdelen er in de betreffende rij of kolom te vinden zijn.

BATTLESHIPS

Place the given fleet in the grid, with every ship segment filling a single cell. Ships are placed horizontally or vertically, and do not touch each other, **not even diagonally**. Cells with water remain empty. Clues outside the grid indicate how many cells are occupied by ship segments.
